Comments:

- 1 ☐ As a Trustee of the Death Valley Unified School District, I am concerned about 2 aspects of the transportation of nuclear wastes (high & low-level) to the proposed Yucca Mtn. Repository:
- 1) In Southeastern Inyo County the highway to be used is Calif. #127. It is winding and full of curves, is classed as a Class #3 roadway by Cal. Trans, and federal funding for improvements are not scheduled til 2012. In essence, 127 is a dangerous route for nuclear transport.
 - 2) As of this spring, there will be no emergency response infrastructure in Southeastern Inyo County through which #127 passes. Haz-mat teams are 85 & 100 miles distant. Should a school bus collide with a transport,

Please note: For your comment(s) to be considered in the final rulemaking, your comment(s) need to be received by the Department of Energy by February 28, 2000. To the extent practicable the Department will consider comments received after February 28.

no rescue of children could be made immediately.

If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer.

To do so, fold in thirds along the dotted line so address and postage-paid notice are visible; then secure with tape. Please feel free to attach additional pages; more postage may be needed.

In fact the Calif. Highway Patrol would have to close down #127 at both ends in case of a spill. ①
